

CONFIRMATION OF COMPATIBILITY

for the use of inputs in organic agriculture

Issued to: **NEOMED Pharma GmbH**
Moltkestr. 38
23564 Lübeck
GERMANY

Document No. **NEOMED-7795/10.07/0245-DE**

This document is to confirm that the inspection and evaluation of the following product

ALGIFOL™

produced and distributed by the company mentioned above came to the following result

The final product can be considered as a product allowed in organic agriculture, according to the requirements of

- **EU No. 2092/91, Annex II. A (European Union)**
- **USDA/NOP-Final rule (USA) 205.601 (j) (1)**
- **JAS Japanese Agricultural Standard for Organic Agricultural Products (Japan)**

Anyhow, it has to be remembered that – although BCS confirms the conformity of the products with the requirements of EU Regulation No. 2092/91 – due to the absence of a uniform interpretation of the term "equivalency", every state authority in the EU has got the right to apply its own criteria in this respect.

The inspection and evaluation of the procedure of production was carried out by BCS Öko-Garantie GmbH, Nuremberg, Germany. BCS is an EU-accredited inspection and certification body, controlled by 16 German state supervising authorities.

In addition BCS is accredited by the US authority USDA to certify according to the NOP-final rule and as an Registered Foreign Certification Company by the Japanese Ministry for Agriculture, Fishery and Forestry to certify according to the Japanese Agricultural Standard for Organic Agricultural Products.

This confirmation does not constitute any guarantee of product quality. It confirms that the use of these products can be considered as equivalent to the requirements in the above mentioned regulations.

Nürnberg, October 24th, 2007

Validity of document: **until August 31st, 2008**
